OBEX

CUBICLE PANEL EXTENDERS

More Privacy. Same Workstation.

A Simple Upgrade for Existing Cubicles.
Less Distractions, More Productivity.

OBEX Cubicle Panel Extenders mount directly to the top of your existing panels, making it easy to add height and privacy without tearing down or reconfiguring your workstations. With multiple material options, colors, and sizes, each extender can be tailored to your space and application.

Made to Fit

Two adjustable bracket sizes fit nearly all cubicle panel systems, regardless of manufacturer.

Made to Upgrade

Add height and privacy to existing workstations without replacing panels or disrupting your current layout.

Made for Your Space

Costs 80% less than new cubicle panels.
5-minute installation.

More Height. More Privacy. Less Disruption.

Privacy | Acoustics | Separation | Flexibility

PRIVACY

Add visual separation between neighboring workstations.

FOCUS

Reduce visual distractions and create more defined individual workspaces.

RETROFIT

Upgrade existing cubicles without replacing panels or changing your workstation layout.

Bracket Sizing

STANDARD BRACKET
Fits panels 1.5" – 2.5" thick

LARGE BRACKET
Fits panels 2.5" – 3.75" thick

Our adjustable brackets make it easy to add OBEX Panel Extenders to nearly any existing cubicle system—without drilling into or replacing your panels.

CHOOSE YOUR MATERIAL

Acoustical

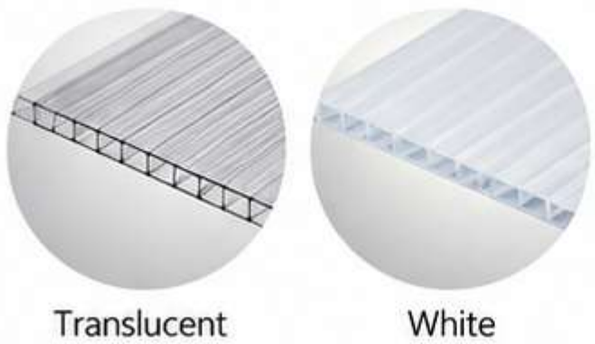

TACKABLE | 20+ FABRIC COLORS

Fabric-covered acoustical board framed in anodized aluminum. Tackable surface provides additional functionality while helping absorb sound and increase privacy.

Polycarbonate

TRANSLUCENT | OPAQUE WHITE

Translucent White

Translucent: Semi-transparent for increased visual privacy while still allowing light through.

White: Fully opaque for maximum visual privacy.

PET

LIGHTWEIGHT | HIGHLY ACOUSTICAL

A lightweight, frameless acoustical solution designed to absorb sound while adding height and separation between workstations.

Acrylic

CLEAR | FROSTED

Frosted: Opaque frosted finish for increased visual privacy.

Clear: Fully transparent for separation without closing off sightlines.
