OBEX

DESK-MOUNTED PRIVACY PANELS

Privacy where you need it. Without changing your desk.

A Simple Upgrade for Any Workspace.

Add privacy, reduce distractions, and create more defined personal workspaces—without replacing or modifying your existing desks.

OBEX Desk-Mounted Privacy Panels attach directly to your existing worksurface using adjustable, non-damaging brackets. With customizable sizes and multiple material options, each panel can be tailored to your workspace and application.

Made to Fit

Adjustable brackets fit desktops from 0.75" to 2.5" thick, making them compatible with nearly any desk or table.

Made to Protect

Secure, non-damaging brackets add privacy without drilling holes or permanently modifying your worksurface.

Made for Your Space

Choose from acoustical fabric, polycarbonate, acrylic, or PET in a variety of colors, finishes, and privacy levels.

More privacy. Same desk.

Privacy | Acoustics | Separation | Focus

OPEN OFFICES

Add privacy and separation to shared benching and open-plan workstations.

PRIVATE OFFICES

Create a more defined workspace without replacing existing furniture.

SHARED DESKS

Separate neighboring work areas while maintaining a clean, open layout.

UNIVERSAL FIT

One bracket. Nearly any desk.

Our adjustable mounting brackets fit worksurfaces from 0.75" to 2.5" thick and secure directly to your existing desk without drilling or permanent modification.

Fits Desktops:

0.75" – 2.5" Thick

No Drilling Required

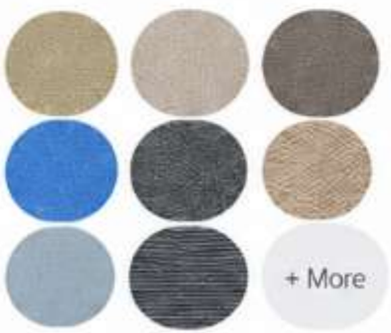

Non-Damaging to Existing Desks

Quick Installation

CHOOSE YOUR MATERIAL

Acoustical

Fabric Covered | Tackable | Sound Absorbing

Fabric-covered acoustical board framed in anodized aluminum. Tackable surface provides additional functionality while helping absorb sound and increase privacy.

20+ Fabric Colors

Polycarbonate

Framed | Durable | Two Privacy Levels

Translucent White

Anodized aluminum framed polycarbonate available in two finishes.

Translucent: Semi-transparent for increased visual privacy while allowing light through.

Opaque White: Fully opaque for maximum visual privacy.

Acrylic

Frameless | Clean, Minimal Appearance

Clear Frosted

A sleek, frameless option available in two finishes.

Clear: Fully transparent for separation while maintaining open sightlines.

Frosted: Opaque frosted finish for increased visual privacy.

PET

Frameless | Highly Acoustical

A lightweight, frameless acoustical panel designed to absorb sound while adding privacy and separation between workstations.

Available in 5 Colors:

Shadow Stone Sand
Navy Lime

Sizing

Made to Order

Every panel is made to order, allowing you to specify the exact size you need. Custom sizing is part of our standard manufacturing process, giving you a panel built for your workspace without the custom price tag.
